### Evolution, a natural selection

"The history of every major galactic civilization tends to pass through 3 distinct & recognizable phases, those of survival, inquiry & sophistication, otherwise known as the how, why & where phases. For instance, the first phase is characterized by the question "how can we eat?" the second by the question "why do we eat?" & the third by the question "where shall we have lunch?"

Douglas Adams, The Hitchhiker's Guide to the Galaxy
